

Snow Driver™

Windshield Wiper Program

The new Bosch **Snow Driver™** windshield wipers are tested to perform at -20°F providing **advanced winter dependability**. Cut through the harsh winter elements with reliable operation during all conditions.

1 Synthetic rubber formulation for longer lasting performance

Tested to perform at -20 degrees providing extreme winter performance

- Clean and quiet wipe during the winter season

2 Patented beam design with aerodynamic grooved spoiler

Resists snow and ice accumulation for winter dependability

- Consistent wiping performance across the entire windshield

3 Click-On™ adapter system

- Covers the popular Hook and Pin connections along with the increasing range of OE connections
- Only 12 part numbers, 94% coverage, and quick and easy installation
